

Laboratory Services & Billing Notice

DermaNP Solutions PLLC is a cash-pay practice. Because our clinic is not contracted with insurance, laboratories bill the ordering provider (DermaNP Solutions) directly for testing.

Patients are responsible for payment of any laboratory fees in addition to their visit cost.

- DermaNP Solutions will coordinate laboratory testing through our partnered reference labs.
- The laboratory does not bill patients or insurance directly for tests ordered by our clinic.
- All lab charges are billed to DermaNP Solutions and must be reimbursed by the patient.
- Patients will be informed of the estimated lab costs during their visit.

If a sample needs to be recollected due to laboratory processing issues (for example, a hemolyzed specimen), you will not be charged twice for the same test.

By signing below, you acknowledge and understand that DermaNP Solutions PLLC will receive invoices for laboratory services ordered on your behalf and that you are financially responsible for those charges.
