

Prescription Refill Policy

- Refills are available for established patients only (after an initial evaluation).
- Refill requests may be submitted through our secure patient portal.
- Each refill request is \$50 and includes a quick chart review by your provider.
- Refills are typically processed within 24–48 hours during business days.
- Certain medications may require a follow-up visit before additional refills are provided.

 This ensures safe, consistent care while making medication access simple and convenient.
