

## Laboratory Services & Billing Notice

DermaNP Solutions PLLC is a cash-pay practice. This means that we do not bill insurance for office visits or procedures. However, if your care requires laboratory testing (such as blood work, cultures, or pathology):

- We will provide you with a laboratory requisition form.
- The laboratory is a separate entity and manages its own billing.
- If you wish to use your insurance for laboratory testing, you must provide your insurance card and information directly to the lab at the time of service.
- If you prefer to pay cash for laboratory services, please request self-pay pricing from the laboratory.
- Any charges from the laboratory are your responsibility and are separate from fees paid to DermaNP Solutions PLLC.

By signing below, you acknowledge and understand that DermaNP Solutions PLLC is not responsible for laboratory billing and that all lab-related charges are handled directly between you and the laboratory.
